

Math/Science Sneak Peak

April 20th – April 24th

WEEKLY OVERVIEW: WEEK 4

Hello families!

Welcome to week 4 of distance learning! Here is a preview of the week for math and science.

MATH – The district packet with continue with VOLUME. If your scholar is struggling, please use the video links from the previous weeks. These are lessons done by your scholar's teacher. The CANVAS learning will center on a standards based project. Scholars using canvas will build a restaurant using previously taught math skills!

SCIENCE – Canvas learning will match and enhance the content of the district packet. If you child received a packet in the mail but is using the online platform Canvas, they can use the packet as a note taker since the information on Canvas MATCHES the science information from the district.

Remember if you have any questions, please reach out to your scholar's teacher!

We're in this together,
Aislinn Van Buren and Mr. Harris
5th Grade Math and Science

RESOURCE: Grade 5 Packet located on the [school's website](#). It can also be picked up at Conway ES from 9am – 2pm.
